Finance Wales Inquiry
Response from Limegreentangerine

Due to recent press coverage questioning Finance Wales as "fit for purpose" I felt compelled to share my support for this organisation. Earlier this year Finance Wales provided Limegreentangerine with a business loan for the development and expansion of the company. This was at the midst of the recession, at a time when we urgently needed financial assistance; yet know one wanted to help. Our bank wasn't interested and despite having ample equity in our building the mortgage company would not permit us to release a penny. Without the help of Finance Wales, 2013 would have had a very difficult year for us. Fortunately we are now heading in the right direction. With a profitable 2013 under our belt we are forecasting great things for 2014. We're very grateful to Finance Wales for their support and belief.

Regards
Andy Rees
