

**Environment and Sustainability Committee**

Inquiry into Energy Policy and Planning in Wales

EPP 270 – Mr M J Davies

Dear Sir/Madam,

I am writing to support the petitions that call for a review of TAN8 and an examination of traffic movements in Mid Wales.

My reasons for this are that the WAG are abusing the trust of the electorate by disregarding their opinions and petitions. You will desecrate our environment, livelihood and homes forever. Countryside not ironside was what you were elected to protect.

Mr. M.J. Davies
