Inquiry into Energy Policy and Planning in Wales

EPP 277 – Bert Holness and Sally George

We are writing to support the petition to review TAN 8.

We absolutely say NO to any further development at all concerning windfarms and/or associated pylons as proposed across the wonderful mid-Wales landscape, a priceless asset and amenity. We regard this kind of thing as vandalism and consider that the whole matter has been handled with less than total openness or responsibility.

Please register our strong repudiation of the measures outlined in TAN 8, which are going to visually destroy one of the finest areas in Europe.

Yours truly,

Bert Holness and Sally George
