

Committee Clerk.
Environment & Sustainability Committee
Cardiff Bay

21/9/11

Dear Sir,

Everyone now knows that statistically 'Wind Farms
fail on every count & make Tan 8, totally outdated

The only effective form of wind energy is when the
turbines are produced locally & the energy
generated used by the neighbouring population.

What is proposed now is a travesty, helping
no one apart from those making a profit.

Please don't destroy Britain -

Sincerely
